## WHO IS DR. MCCROSSON?

A board certified orthopaedic surgeon specializing in hip and knee replacement, Dr. John McCrosson has performed over 2,000 hip and knee replacements. He is recognized as one of the top joint replacement surgeons in South Carolina and is a member of the American Association of Hip and Knee Surgeons, as well as the American Academy of Orthopaedic Surgeons.

After graduating from Emory University, Dr. McCrosson earned his MD at the Medical University of South Carolina, where he also completed his orthopaedic surgery residency. Following his residency, he did a fellowship at the prestigious Insall Scott Kelly Institute in New York City.

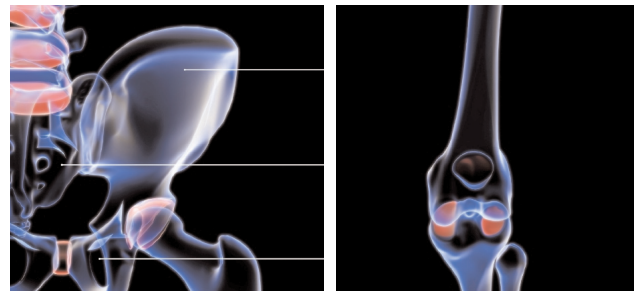

## OUR TEAM APPROACH LEADS TO EXCELLENT PATIENT CARE

Dr. McCrosson has assembled an excellent team of healthcare professionals to provide quality and efficient care. Highly skilled Physician Assistants (PAs) are key team members, completing patient evaluations, physical examinations, writing prescriptions and managing much of the patient care before and after Dr. McCrosson performs the surgery. The team approach at Charleston Hip & Knee Replacement ensures that patients' needs are met in a timely and personal manner, and that comprehensive care, from diagnosis through treatment, is seamless.

## WHAT TO EXPECT

Dr. McCrosson operates at the Roper St. Francis Joint Replacement Center, which follows established clinical pathways and has a very low post-operative complication rate.

After surgery, a physician assistant, an internist (your regular one or one selected by Dr. McCrosson) and a registered nurse will round on patients. In order to provide the best care possible, we elect to keep joint replacement patients in the hospital for more comprehensive care and assistance to reduce complications. A specialized team will check patients' daily progress throughout their stay.

## DR. MCCROSSON'S COMMITMENT TO HIS PATIENTS

Personal service and commitment are considered a premium in today's fast-paced society. Dr. McCrosson and his team believe that listening is key to truly understanding a patient's needs. No question is unimportant, and no request is too small. Charleston Hip & Knee Replacement Center is here to serve you.

At Charleston Hip & Knee Replacement Center, Dr. McCrosson and his team use state-of-the-art technology and stay abreast of the latest advancements in orthopaedic care.
